CONFIDENTIAL

SEPARATE COVER ATTACHMENT — TO EGMA 59153

Research Associate, I.C.R.S., E. U.
Consulting Editor

In order to clear up the mystery surrounding the \$5,000.00 grant for the trial issues of Review of Soviet Medical Sciences and Dr. White's role in it, I suggest the following story.

When Dr. Schulz was in Washington, he and Dr. White talked about this project, ~~with U.S. Government Health officials. They, as they said at the time, were very interested.~~ In later conferences Dr. White determined that NIH might be willing to support such a project at a later date if several issues could be produced, ~~and were evaluated by their staff, and distributed on a trial basis to determine reader response.~~ *Dr. White feels that* Dr. White communicated this to ACL/
New York. ACL decided to make the \$5,000.00 grant from year-end funds. Dr. White has indicated a willingness to serve as unofficial intermediary between ~~the Washington health groups~~ *among* and the Institute regarding policy on and suggestions for the new publication. Dr. White will communicate with Dr. Schulz through ACL/New York - Dr. Fredericksen - Crowley - so that the correspondence will be on record.

My role in this has been as follows:

- 1) When I first arrived at the Institute I mentioned to Dr. Schulz that I had met Dr. White through my translation and research work with US-JPRS. I said that I had recently talked to Dr. W, had told him I was coming to the Institute, and had been asked to convey Dr. W's greetings to him. Dr. Schulz is of the opinion that I correspond with Dr. White on a personal basis.
- 2) Before going to the U.S., Dr. Schulz discussed plans for the proposed journal with me. We have discussed it several times since his return, and he wants to work quite closely with me on the project. Guidance to me from Dr. White concerning sensitive matters can therefore come thru these channels without parallel memoranda from ACL/New York.
- 3) In order to strengthen my position, I suggest that I be specifically designated as Munich coordinator (or some appropriate term) of this project.
